An Olympiad of Healing - Healers Reaching Healers

The Vision of NH-PAI -

*"We believe healing is an innate human potential.
Our vision is for world-wide healing through
expanded awareness and access to Therapeutic
Touch as a process which potentiates healing."*

Conference Objectives

1. *Serve to enhance the knowledge, skills, and insight of the membership of Nurse Healers - Professional Associates International and other interested parties.*
2. *Deepen your own experience and understanding as a healer.*
3. *Facilitate the ongoing exchange of ideas and success stories in the clinical practice, research, and education in Therapeutic Touch.*
4. *Increase public awareness and understanding of Therapeutic Touch as a healing pathway in healthcare and everyday life.*
5. *Increase understanding of integrated therapies that may complement Therapeutic Touch.*

Keynote Speakers

Dale B. Hull, MD

Dr. Hull received his medical degree from the University of Utah School of Medicine in 1985 followed by a residency in Obstetrics and Gynecology. He practiced general obstetrics and gynecology for ten years in the Salt Lake City area.

In 1999, he suffered a cervical spinal cord injury from a trampoline accident resulting in quadriplegia. After five months in hospitals and three surgeries later, he began his outpatient rehabilitation using both land based and aquatic therapies. During the 2002 Winter Olympics, Dr. Hull was an Olympic Torchbearer, walking with the Torch completely unaided.

Dr. Hull is a native of Utah. He is married and has four sons. He has recently begun a nonprofit foundation focused on neurological rehabilitation. His goal is to build the finest outpatient facility in the Intermountain West. Be inspired by his story on “Competing Against Adversity.”

Response to Keynote: Barbara & Meg Hendleman

Just as Dr. Hull's whole world was turned upside down in a matter of seconds, the Hendleman family experienced the same type of tragedy when Meg fell from a cliff in southern Utah early in 2004. Her mother, Barbara, sought every type of complementary treatment that might assist the medical regimen in her daughter's recovery. Weekly Therapeutic Touch treatments, along with multiple distance treatments were offered in Meg's behalf. Come listen to their amazing story.

"How Therapeutic Touch Helps When Competing Against Adversity."

Dolores Krieger, PhD, RN

Dr. Krieger is Professor Emerita, New York University and co-creator of Therapeutic Touch with Dora Kunz. She is the author of several books including "The Therapeutic Touch Inner Workbook" and "Therapeutic Touch As Transpersonal Healing: Advanced Practices and Teaching Strategies". Her newest book, "The Spiritual Dimension of Therapeutic Touch", released in June 2004, will be available at the conference. Dr.

Krieger has taught Therapeutic Touch internationally since 1972. She tours extensively, sharing her wisdom and expertise. Join Dr. Krieger as she teaches *"The Olympian Challenge: A Time for Self-Awakening."*

Oh Shinnah Fast Wolf, MA

Native American elder, spiritual warrior woman, healer, teacher, visionary, ceremonialist. Oh Shinnah has been on the leading edge of bringing out ancient teachings and draws her knowledge from her lineage. From her father, she inherits traditions from the people called Apache. From her mother's people, she inherits traditions from Mohawk and Scots peoples. From her grandmother, she inherits traditions that may be older than time. Oh Shinnah blends these traditions with teachings from her other indigenous elders, from her university education and from

her vast experiences in many dimensions. Learn new ways to transform and heal yourself, others and our home, Mother Earth. Come sit with O Shinnah as she shares her thoughts on *"Healing in the Time of Prophecy"*.
